SUBJECT INDEX TO VOLUME 41

Al^{3+} vs. Ca^{2+} ion binding, calmodulin and, 283
Aluminum, kinetics of release of aluminum from human serum dialuminum transferrin to citrate, 187
Aluminum ion, calmodulin and, 283
Amino acids, Pd(II) and Pt(II) complexes of, 95
Aminohydroxyamic acid ligands, zinc complexes and, 71
Antimicrobial activity, transition metal chelates with some heterocyclic imines and, 299
Antitumor activity, bis(adeninato-N^9)diphenyltin(IV) and, 25
Auxins, interligand interactions in ternary copper(II) complexes of dipeptides and, 57
Bis(adeninato-N^9)diphenyltin(IV), antitumor activity and structure of, 25
Bromo/iodoperoxidase, vandate(v) interaction with, 171
Cadmium, vitamin B_{12} and toxicity of, 1
Calcium(II)-amino acid complexes, ^{14}N, ^{15}N, and ^{17}O NMR spectra in aqueous solution, 143
Calmodulin
  Al^{3+} vs. Ca^{2+} ion binding to, 283
  aluminum ion and, 283
Calorimetric investigation, inositol hexaphosphate interaction with Fe(III) and Cr(III), 245
Catechol and amino acids, ternary complexes of, 63
Chitosan, cobalt complex immobilized to, 7
Chromatin, ionic strength effects on endogenous nuclease activity in, 117
Cimetidine, copper(II) ternary complexes with, 149
cis-K_4 [$PtCl_2ATP$]
  Dalton's lymphoma cells and, 293
  synthesis, characterization, and in vitro cytotoxic effects of, 293
Cisplatin
  cytotoxicity of, 93
  nephrotoxicity with, 17
  regeneration experiments of platinated enzyme fumarase, 17
Cobalt complexes, chitosan and, 7
Cobinamide, preparation of diaquo- forms of incomplete corrinoids, 235
Cobinic acid pentaamides, preparation and characterization of diaquo- forms of incomplete corrinoids, 235
Cobyric acid, cobinamide, and three isomeric cobinic acid pentamides, preparation of diaquo- forms of incomplete corrinoids, 235
Complexation studies, inositol-phosphates and, 37
Copper, characterization in *Coriolus consors* lacasse, 277
Copper flurbiprofen complex, synthesis, characterization, and biological screening of, 45
Copper transfer from *Rhus vernicifera* lacasse, 253
Copper(II) ternary complexes, Cimetidine and, 149
Coriolus consors lacasse, characterization of coppers in, 277
Corrinoids, preparation of diaquo- forms of incomplete, 235
Cu(II)(3,5-DIPS)$_2$ oxidation of thiols, 221
Cuprous ion transfer, 253
Cytotoxicity, transition metal chelates with some heterocyclic imines and, 299
D-glucosamine-6-sulphate, *D*-glucuronic acid, and *L*-iduronic acid, metal binding to heparin monosaccharides, 157
D-glucuronic acid, *L*-iduronic acid, and *D*-glucosamine-6-sulphate, metal binding to heparin monosaccharides, 157
D-*myo*-inositol 1,2,6 triphosphate, alkali-metal complexes of, 37
Dalton's lymphoma cells, cis-K_4 [PtCl2ATP] and, 293
Deferoxamine, vanadium biological effects and, 269
Diaquo- forms of incomplete corrinoids, preparation and characterization of, 235
Dimethyltin(IV) species, DNA interaction with, 31
Dipeptides, interligand interactions in ternary copper(II) complexes of auxins and, 57
Disulfides, conversion of, 221
DNA, dimethyltin(IV) species interaction with, 31
DNA binding of porphyrins, N-alkyl substituents and, 205
DNA-Pt-protein crosslinks, 195
Endogenous nuclease activity, chromatin and, 117
Enzyme-metal ion-drug complexes, 149
Fe(III) and Cr(III), inositol hexaphosphate interactions with, 245
Fumarase
  regeneration experiments of platinated enzyme, 17
  sodium diethyldithiocarbamate and, 17
Guanosine and amino acids, ternary complexes of Pt(II) with, 195
Heparin monosaccharides, metal binding to, 157
Heterocyclic imines, antimicrobial and cytotoxic activity of transition metal chelates with some, 299
Human plasma selenium proteins, 261
Human serum dialuminum transferrin to citrate, kinetics of release of aluminum from, 187
Inflammation, copper flurbiprofen complex with anti-inflammatory effects, 45

Inositol hexaphosphate, Fe(III) and Cr(III) interactions with, 245
Inositol-phosphates, complexation studies on, 37
Kidney, vitamin B_{12} and cadmium toxicity, 1
L-iduronic acid, *D*-glucosamine-6-sulphate, *D*-glucuronic acid, metal binding to heparin monosaccharides, 157
Lacasse
  characterization of coppers in *Coriolus consors*, 277
  copper transfer from *Rhus vernicifera*, 253
  ternary complexes of Cu(II), 63
Liver, vitamin B_{12} and cadmium toxicity, 1
Meso-tetrakis porphyrins, DNA binding of, 205
Metal binding to heparin saccharides, 157
Metal chelates, cytotoxic activity of, 299
Metal ions
  piroxicam phototoxicity and, 53
  release of, 187
Metallothionein
  penicillamine, trientine, and trithiomolybdaten with, 87
  synthesis of radiolabeled, 87
Molybdenum(V) thioglycolate, synthesis and spectroscopic studies of paramagnetic, 79
N-alkyl substituents, DNA binding of meso-tetrakis porphyrins and, 205
Nephrotoxicity, cisplatin and, 17
NMR spectra, CA(II)-amino acid complexes and, 143
o-diphenols, cobalt(II) complexes and air oxidation of, 7
Paramagnetic molybdenum(V) thioglycolate, synthesis and spectroscopic studies of, 79
Pd(II) and PT(II) complexes of amino acids, 95
Penicillamine, metallothionein and, 87
Peptides, ^{51}V NMR investigation with Phe-Glu and Gly-Tyr, 171
Phe-Glu and Gly-Tyr, ^{51}V NMR investigation with model peptides, 171
Phytic acid, Fe(III) and Cr(III) interaction with, 245
Piroxicam, phototoxicity of, 53
Plasma, human plasma selenium proteins, 261
Platinum drugs, toxicity of, 195
Porphyrins, DNA binding of, 205
Proteins, human plasma selenium, 261
Proton NMR studies, Zn(II)-aminohydroxamic acids and, 71
Pt(II), ternary complexes of, 195
Rhus vernicifera lacasse, copper transfer from, 253
Rhus vernicifera, coppers in *Coriolus consors* vs., 277
Selenium, chemical forms in human plasma fractions, 261
Sodium diethyldithiocarbamate, fumarase and, 17
Ternary complexes, catechol and amino acids, 63
Ternary copper(II) complexes, interligand interactions in, 57
Thiols, Cu(II)(3,5-DIPS)$_2$ oxidation of, 221
Thiomolybdates, Wilson's disease and, 87
Transition metal chelates, antimicrobial and cytotoxic activity of, 299
Triamminechromium(III) complexes, tripolyphosphate and adenosine tri- and diphosphate, 105
Trientine, metallothionein and, 87
Tripolyphosphate and adenosine tri- and diphosphate, triamminechromium(III) complexes of, 105
Trithiomolybdate, metallothionein and, 87
Tumors, bis(adeninato-N^9)diphenyltin(IV) and, 25
Tunicates, vanadium metabolism in, 125
Tunichromes, structure of, 125
Vanadium
  biological form of, 269
  metabolism in tunicates, 125
Vanadium(IV) deferoxamine complexes, spectrophotometric and ESR evidence for, 269
Vandate(V), interaction with bromo/iodoperoxidase, 171
Vitamin B_{12}, cadmium toxicity and, 1
Wilson's disease, thiomolybdates and therapy for, 87
Zinc(II)-aminohydroxamic acids, potentiometric and proton NMR studies on, 71
